

Breeding Scientific Innovations, Harvesting Global Commercial Breakthroughs
Donald Danforth Plant Science Center | St. Louis, MO | May 23 - 24, 2011

16 Companies Selected for 2011 Ag Innovation Showcase

Sixteen companies have been selected in a rigorous international competition to present at the third annual Ag Innovation Showcase (www.agshowcase.com), May 23-24, 2011, in St. Louis, MO. These companies represent the most promising and brightest innovations in renewable energy, ag biotech and genomics, and sensors and analytics. The companies will present their technologies to a global audience of investors and ag industry executives at Showcase held at the Danforth Plant Science Center, the world's largest independent plant science research institute and located in the heartland of American agriculture.

GrassRoots Biotechnology (www.grassrootsbio.com), Durham, NC
Biogas & Electricity (www.biogasandelectric.com), San Diego, CA
Phycal, Inc. (www.phycal.com), St. Louis, MO & Cleveland, OH
NSure BV (www.nsure.nl), Netherlands
GS Biotech S/B (www.gsbiotech.com), Malaysia
Vestaron Corporation, (www.vesatron.com), Kalamazoo, MI
Orchid Life Sdn Bhd (www.orchidlife.com.my), Malaysia
Newtricious BV (www.newtricious.nl), Netherlands
C5-6 Technologies, (www.c56technologies.com), Middleton, WI
Earth Analytics Group (www.earthanalyticsgroup.com) Fort Collins, CO
Aquation Pty Ltd. (www.aquation.com.au), Australia
Solum (www.solumtech.com), San Diego, CA
Veris Technologies, Inc. (www.veristech.com), Salina, KS
Sensor Development Corporation (www.sensordevelopmentcorp.com) Rocky River, OH
Ag Technix Pty Ltd. (www.agtechnix.com), Australia
GrowSafe Systems Ltd. (www.growsafe.com), Alberta, Canada

About the Ag Innovation Showcase

Established in 2009, the Ag Innovation Showcase has quickly become the leading annual global event for agriculture's industry leaders, entrepreneurs, venture capitalists and investors. It promotes emerging technologies in ag-bio, food and nutrition, biofuels, sustainable materials, clean-tech, information technology and animal health. Held at the Donald Danforth Plant Science Center in St. Louis, MO, the largest independent plant science research institute in the world, the Ag Innovation Showcase is a joint effort of BRDG ("bridge") Park at the Danforth Plant Science Center (a research campus for plant and life sciences enterprises) and the Larta Institute, as well as a number of sponsors. More information is available at www.agshowcase.com
